APEC Climate Center

◆ About APCC

The APEC Climate Center (APCC) aims at realizing the APEC vision of regional prosperity through the enhancement of economic opportunities, the reduction of economic loss, and the protection of life and property by responding effectively to natural disasters and mitigating economic losses in the case of extreme climate events. The APCC will enhance the socio-economic well-being of the APEC member economies by utilizing up to date scientific knowledge and applying innovative climate prediction techniques.

◆ Venue

Busan is a beautiful port city located on the Southeastern tip of the Korean Peninsula. The natural environment of Busan is a perfect example of harmony between mountains, rivers and sea with superb beaches and scenic cliffs, mountains and hot springs scattered throughout the city. Its natural endowments and rich history have resulted in Busan's increasing reputation as a world class city of tourism and culture.
